

Good afternoon Dr. Manning,

Since our previous report, we have

- Completed our meeting with Dr. Selby on October 30th
 - We conducted research on suitable journals for potential publication and prepared to record and narrate the audio for the P6 Demo.
 - We settled on a letter deliverable that could be potentially published in a journal.
 - We presented our in-depth analysis result to Dr. Selby to reveal how Mini-Grid contributes to educational development by making positive impacts on the socioeconomic environment in local communities.
 - We also used this meeting to complete part of P7 - Field Evaluation. The meeting was recorded, and Dr. Selby was tasked with using our website project during this meeting.

As for individual work completed, below are details regarding individual contribution since the prior team report:

Brock Pace

- Completed partner engagement slide summarizing meeting for October 30th and future direction of project
- Assigned to record audio narrative and video for P6 Demo
- Looked into various journals where the team can possibly publish a tech letter

Xiaobo Ren

- Completed slide of presentation detailing how deliverable's critical functions accomplished (analyzing of education data)
- Prepared presentation with data analysis and led meeting with Dr. Selby

Bokyoung Won

- Completed slide of presentation detailing how deliverable's critical functions accomplished (analyzing of healthcare data)

Sophia Wu

- Completed partner engagement slide summarizing meetings and communication with Dr. Selby
- Assigned to add demo presentation and link to demo video to website
- Complete project management & logistics: assigned slides for P6 demo to individual members, updated team on upcoming assignments and tasks to be done prior to assignment deadlines, began write up of the field evaluation pdf

Best Regards,
